Substrate Cleaners

CoverClean HC

Microbial Cleaner for oil contaminated concrete

Before using CoverClean HC regular Pressure Cleaning does not remove drive thru oil and stains

Floor rinsed after 3 hours with CoverClean HC clearly showing where oil was removed

- **Clean all surfaces**
- **Cleans Oil Contaminated Concrete**
- **Cleans Mastic Residue**
- **No VOCs**
- **Works Oil, Diesel and Petroleum.**
- **Leave no residue**
- **Increases Coating Adhesion**
- **Non Hazardous**
- **Biodegradable**
- **Fast Acting**
- **Meets USDA requirements**

CoverClean HC is a highly effective professional grade cleaning solution that uses micro-organisms to digest and clean oil, fat and grease from concrete, masonry and metal surfaces. CoverClean HC has been especially developed to remove hydrocarbons from oil contaminated concrete prior to coating. The product is environmentally safe and harmless to humans, pets, plants and aquatic life.

The Main Uses: Cleaning asphalt paving, Chemical removal residue, Parking lots and driveways ,Engines and Petroleum tanks.

**Machine shop floors • Factory floor
Oil contaminated concrete • Asphalt
residue •Warehouse Floor •Industrial**

Other products from CoverTec

CoverTec Products LLC is a US manufacturer and distributor of specialty chemical products used in the surface preparation, restoration and protection of building substrates. CoverTec products are used primarily in Flooring applications, Roof and Wall waterproofing and for Industrial and commercial maintenance.

Our products have very low odor and VOC can be applied to many substrates including concrete, wood, tile, stone, brick metal, rubber and aged asphalt. Key products groups include:

- Clear surface sealers
- Specialty coatings
- Substrate cleaners
- Waterproof coatings

Technical Support

CoverTec offers training and technical support with all our products. We have experts in the field and in the lab that can offer the highest level of technical service.

Green Product Solutions

CoverTec is committed to green building and LEED certification contributions. We are a member of the **US Green Building Council**, and have products backed by a range of approvals including Energy Star, USDA and NFSI

Primer OS

Is a solvent based penetrating epoxy primer that exhibits excellent characteristics for coating over petroleum based oil contaminated concrete. This product has been developed to block oil 'bleed back' from oil contaminated concrete substrates and provide a primed surface for subsequent epoxy or polyurethane coating systems.

CoverSeal PEN50

Is a hydrophobic silane siloxane emulsion specifically developed to reduce the ingress of salts and water to, concrete, stucco and masonry substrates. It is also highly resistance to mold and mildew.

CoverShield E900

Is high build colorfast abrasion resistant epoxy coating with zero VOC. The product is highly decorative and is suitable for use in a wide range of applications on concrete, metal and wood floors and walls.

CoverShield U140

Is an industrial grade, water based clear gloss or matte finish polyurethane sealer. U140 was developed specifically for sealing concrete floors in Warehouse, Workshops and Industrial type environments. U140 is non yellowing and highly resistant to oil, staining and a wide range of chemicals.

CoverSeal PEN55

Is a water based penetrating oil and stain resistant clear sealer. PEN55 is a UV resistant fluoropolymer solution that is extremely resistant to oil, water and staining. The product can be used on any porous surface such as concrete, brick, natural stone and tile, exterior or interior on floors and on walls.
